INTRODUCTION:

Credentialing Assistance (CA) DECIDE is a decision support tool developed to assist Service members participating in the Army Continuing Education System (ACES) Texas CA Limited User Test (LUT). CA DECIDE allows Service members to identify training providers that offer training courses which prepare them for industry-recognized certifications and licenses. After choosing from a wide selection of vetted training providers, Service members can begin the CA funding application process directly from CA DECIDE. This Standard Operating Procedure outlines the steps to navigate through the tool from selecting a credential through submitting an application.
