

## Declare Delivery Orders GST

According to the **21 Days Rule**, if the **Tax Invoice** is issued within 21 days, the date of invoice will be considered as **Time of Supply**. However, if you are not able to issue the tax invoice after goods delivered or service performed within 21 days, then the **Time of Supply** will have to fall back to the date of **Delivery**.

With the help of GST Advisor, you can declare the delivery order's GST in your tax return, without issue the tax invoice within 21 days. The account posting entries will be updated as well. And at the time of tax invoice issued, the declared tax amount will be removed from the tax invoice accordingly, so that you will not pay for the same transaction 2 times.

Follow these steps to declare tax from delivery orders before submit the tax return:

1. A few GST settings is required before proceed to GST Advisor. You have to configure the posting account for GST From DO.

2. Open GST Advisor, define the taxable period you want to get advice from.
3. Click "Get Advice" and move to Outstanding DO->Declare Tax by DO

4. Now you have a list of Delivery Orders within this period to be declared. You have to determine whether the tax invoice can be issued within 21 days from the time of delivery. If the tax will not be issued within 21 days, you have to declare the tax of delivery orders. To proceed, select multiple delivery orders from the list, and click **Tax Declaration->Declare**.
